

S-FACTOR CEO, BONNIE-LYN DE BARTOK NAMED FINALIST AS FEMALE EXECUTIVE OF THE YEAR BY WP

On November 22, 2018, S-Factor CEO, Bonnie-Lyn de Bartok was named as a finalist for Female Executive of the Year by WP. WP's inaugural Women in Wealth Management conference was a rip-roaring success with thought-provoking speakers and the unveiling of its first award winners.

Sponsored by MacKenzie Investments, the day featured some of the industry's leading female executives and experts, including discussion panels on how to attract more women into the industry and how to best serve female clients.

ABOUT THE S-FACTOR

The S-Factor is a data analytics company focussed on the Social Factors of ESG. The company provides the deepest set of social impact data, largest number of social data points and standardized norms- screens currently available on the entire ESG market.

As subject matter experts and veterans in measuring social impact around the world, the S-Factor helps the SRI/ESG, alternative data market, asset managers, and investors make more informed and impactful investment decisions. The firm sells company and country ESG data, ratings, index and analytics for compliance, risk and hedge. Utilizing a combination of machine learning, NLP, big data and subject expertise, the S-Factor has managed to solve three major ESG data problems;

1. **The Social Data Gap:** S-Factor defines a universal standard derived from existing global regulations for social criteria from which companies and countries can measure change and impact.
2. **Quantification:** S-Factor quantifies the perceived immeasurable, soft social content. We demystify, with empirical evidence, that social information is in fact tangible, measurable and quantifiable using the S Factor methods.
3. **Returns:** S-Factor has developed a quantitative model to achieve excess returns whilst investing with social purpose. Today, The S Factor Co. serves some of the world's largest asset and portfolio managers with greater insights into their investment companies risks and impacts - where they do business and throughout their supply chains.
